PROFILE

An emerging engineer. I am deeply passionate about learning technology to drive innovative solutions. With proficiency in Python. I am continuously expanding my skill set in the ever-evolving tech landscape.
I am an Hardworking community program leader with advanced presentation skills, event planning expertise and proper coordination expertise.

WORK EXPERIENCE

**INTERNSHIP TRAINING AT
BHARAT ELECTRONICS LIMITED**

- 31-JULY-2023 TO 31-AUG-2023
- The main knowledge during my whole internship was about Radar Infrastructure prominently which used python language.
- I was given a letter of recommendation and a completion certificate via Organization.

ETHICAL HACKING COURSE

- Currently I am pursuing a Ethical Hacking course .
- It's a 18 months course from which I have already completed with my 6 months.
- Till now I have learnt about Linux basics, proxies and VPN,
  port scanning ,networking scanning and still left with a lot to learn.
